

Aviation

Linweld Hangar - Lincoln, NE

Get Off The Ground

Evolving technologies demand increasing adaptability for aviation related facilities. Let our design-build expertise simplify the construction process of your next project. We specialize in understanding customer needs and developing practical, cost effective construction solutions. Put our reputation for visionary designs, accurate estimates, quality workmanship and completing projects on time and within budget to work for you. Our focus on safety assures the welfare of our workforce and airport operations. From projects ranging from small hangars for private planes to commercial aircraft maintenance buildings Ayars & Ayars will help get your project off the ground.

Customer Driven Construction Solutions

- **Coordinated Team Approach:**
Helps identify needs.
Provides design answers.
- **Accurate Project Costs:**
We don't just design projects - we build them. Our pricing is based on actual experience.
- **Our Sustainable Design Process:**
Lower cost of operations.
Improved work environment.
- **Quality Workmanship**
Long history of experienced craftsmen building award winning projects.
- **"...our lobby needed to be a showpiece...Ayars & Ayars would be my builder of choice on future projects."** - Jerry Scherrill, Duncan
