

Religious

Saint Joseph's Catholic Church - York, NE

Trust

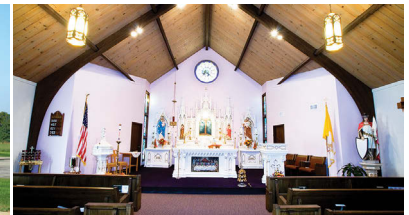

We recognize that your construction project is an integral part of achieving God's vision for your congregation. Our design-build construction approach first seeks to understand your needs, culture and resources. The team then conceives an innovative design solution tailored to your specific situation. We look to create efficiencies that control costs before developing detailed estimates that reflect the true budget. As construction progresses you'll realize the value of our commitment to self performance. Completing critical building components with our experienced workforce ensures project quality and adherence to schedule. Our commitment to excellence certifies your new facility will enhance your earthly mission for many years to come.

Customer Driven Construction Solutions

- **Coordinated Team Approach:**
Helps identify needs.
Provides design answers.
- **Accurate Costs:**
We don't just design projects - we build them. Our pricing is based on actual experience.
- **Our Sustainable Design Team:**
Lowers operating costs.
Enhances worship experience.
- **Quality Workmanship:**
Long history of our experienced work force building award winning projects.
- "...a fine tradition of workmanship associated with Ayars & Ayars." - Monsignor Robert Vasa, The Diocese of Lincoln
