

Monsanto - Blair

Responsive to Needs

Monsanto establishes regional research facilities throughout the United States to tailor their products to produce the highest yields in every region of the country. Ayars & Ayars, Inc. is pleased to assist Monsanto achieve their goal of helping farmers feed the world. Our scopes of work on this design-build project included: foundations, building erection, interior finishes, freezer installation, concrete flatwork, paving, and landscaping. We are proud of our large number of clients with whom we have completed multiple projects - Monsanto is a prime example.
