

Monsanto - Harrisburg

The Works

Monsanto's Harrisburg campus features separate facilities conducting research on both corn and soybean hybrids. Ayars & Ayars, Inc. is pleased to assist Monsanto achieve their goal of helping farmers feed the world. Our scopes of work on this design-build project included: site development, foundations, building erection, interior finishes, freezer installations, concrete flatwork, paving and landscaping. We are proud of our large number of clients with whom we have completed multiple projects – Monsanto is a prime example.

Project Details
