

Industrial

Burlington Northern Railroad

Zero Interference

Burlington Northern Railroad selected Ayars & Ayars, Inc. to erect this locomotive refueling depot. Challenges overcome by our project team included safely erecting the “open-ended” facility around an operational railroad track. Our scopes of work included: foundations, steel erection and concrete flatwork.

Project Details

➤ Lincoln, Nebraska

➤ 11,700 sf

➤ Pre-Engineered Metal Building

➤ Project Completion: 1995

➤ Ayars & Ayars specializes in providing solutions to challenging projects.
