The Lofte Community Theatre

Barn Raising

After 30 years the Lofte Community Theatre and the “Born in a Barn” players have a new home. The building’s timber frame construction fits well into the building’s rural setting and reflects the Lofte’s history. Amenities of the new theatre include a larger stage, additional seating capacity, better sound and lighting and improved ambiance for both the audience and the actors.

Project Details

➤ Manley, Nebraska

➤ 8,500 sf
