Holthus Field House

Local Support

This new Field House for York College features a raised running track. The brick facade that graces this metal building is a reflection of the other buildings on the York College Campus. Creative thinking and value engineering allowed Ayars & Ayars, Inc. to work through winter conditions, accelerating project completion by 30 days to facilitate the college's desire to incorporate facility dedication into the springtime graduation ceremony. Scopes of work included foundations, steel erection, concrete flat work, masonry, interior finishes and MEP.

Project Details

- York, Nebraska
- 35,000 sf
- Pre-Engineered Metal Building
- Project Completion: 2003
- York College believes that equal emphasis should be placed on ones mental, spiritual and physical well-being.
