

Recreational

Mahoney State Park Activity Center

Smooth as Ice

This multi-purpose facility at Mahoney State Park features an open air ice skating rink and space to warm up with a cup of coffee or spend time relaxing in the indoor fun center after the big hockey game. The building doubles as an activity center during the warmer months.

Mahoney State Park Activity Center is a good example of the possibilities pre-engineered building technology has to offer.

Project Details

➤ Platte River Valley, Nebraska

➤ 24,080 sf
