Hamilton Telecommunications

Phase 1 & 2

Hamilton Telecommunications and Ayars & Ayars Inc. have teamed up to complete a four phase design/build project. One of which included creating a new parking lot and the other, a new structure to accommodate Hamilton's daily operations. This new tilt structure will have plenty of open work space, room for 20 offices and over 50 cubicles for Hamilton employees. One unique feature of this tilt-up project is that it includes a basement. Ayars & Ayars, Inc. was up for the challenge and completed the task with ease.
