Jetsplash #5

Squeaky Clean!

Ayars & Ayars Inc. worked with Jetsplash once again to provide Design/Build solutions for their newest station located at 84th and Hwy 2 in Lincoln, Nebraska. This car washing station utilized Insulated Concrete Forms (ICF) instead of conventional insulation. This building process uses eco-friendly materials and allows for a faster project delivery date. It makes the entire building process very efficient. Ayars & Ayars, Inc. also completed paving in and around the facility.
