

OCT Pipe LLC.

Going Great Lengths

Ayars & Ayars, Inc. is the design-builder for a pipe manufacturing facility located in Norfolk, NE for OCT Pipe, LLC. The new manufacturing building will encompass around 1.2 million square feet of steel building structure and will have an estimated workforce of 300 employees. Over three quarter million cubic yards of dirt is being moved on the 107 acre site to facilitate the grading work for the project. 6,000 tons of steel and 45,000 cubic yards of concrete will be used for construction of the new pipe plant. A 6,500 square foot office building will also be built on the site.
