Dear Mr. Ayers:

On April 15, 2005, Cliff Morris, Safety Consultant and Gilford Samuels, Safety Supervisor conducted an on-site Safety consultation at Gander Mountain Project. Cliff Morris has reported that as a result of his observations no recommendations were made. This indicates that your effort to maintain a workplace free from recognized hazards is helping to provide a safe and healthful workplace for your employees.

We would like to take this opportunity to congratulate you for the manner in which you promote the safety and health of the employees of your site. It is our goal to continue to reduce the number of persons injured on the job in Kansas. With people like yourself assisting us, our attainment of that goal is made easier.

Again, thanks for your cooperation in this endeavor. If we may be of further assistance, please do not hesitate to contact this office.

Sincerely,

Don Palmer  
Acting Program Administrator
