

TECHNOLOGY PARK
UNIVERSITY OF NEBRASKA

December 19, 2001

To Whom It May Concern:

I am pleased to acknowledge the fine work the Ayars & Ayars management team brought to a uniquely constructed multi-tenant building at the Technology Park in Lincoln, NE.

Their flexibility and design work to accommodate a building that holds five technology-based companies is indeed a challenge. Ayars & Ayars did well and in a timely fashion.

The construction had to come in on time, which it did, and meet budget requirements. Try doing that with five individual companies and the egos that go along with "techie"!

Our future plans call for another multi-tenant building to accommodate the continuing expansion of the technology sector in Nebraska.

Ayars & Ayars brings a seasoned team to work each and every day. I'm sure they'll be ready when the Technology Park makes the call again.

Sincerely,

Charles Henderson, President
University of Nebraska Technology Park LLC

CH/pmj

UNL Tech Park

Description: The University of Nebraska Technology Park is a tilt up structure that will be an "incubator" space for young businesses. Tenant spaces are in the process of being rented and finished, along with landscaping.

Project Number:

00-B-169

Location:

Lincoln, Nebraska

Size:

30,800 sf buildings
