

Commercial

Cornhusker Bank - Lincoln, Nebraska

Commercial Enterprises

So, you have made the decision to build a new commercial building. As your design-build partner, we commit our combined knowledge and personnel to help you to successfully complete your new facility, while adding value to your business. Whether you choose tilt-up concrete, masonry, pre-engineered or conventional construction, our LEED accredited staff can recommend options for increased building efficiencies. Our history of quality workmanship ensures your new facility will contribute to the operational success and public image of your company while supporting your bottom line.

Customer Driven Construction Solutions

- Self Performed Work:
Sets the trend for quality.
Easier to control schedule.
- Single Point of Contact:
Reduces frustrations.
One individual designated for all construction related questions.
- Earlier Project Occupancy:
A cooperative team effort facilitates faster project completion.
- Our Sustainable Design Benefits:
Cost benefits, workspace improvements & goodwill reap tangible rewards.
- "Linweld is proud to have selected Ayars & Ayars for this project as well as others in the past." - Ron Smith, Linweld
