

Educational

Dorchester Public School - Dorchester, NE

Building For Tomorrow

Expanding or renovating your school means balancing modern educational demands with available resources. Our team approach to design and construction from the beginning of your project fosters a strong partnership resulting in better control over quality, budget and schedule. We work with you to develop efficient and effective projects that meet your needs. We specialize in sustainable designs that enhance learning environments and reduce operational costs. Our history of building award winning projects is your assurance of construction excellence and timely completion. Let the team that built Nebraska's first design-build public school help you build for tomorrow.

Customer Driven Construction Solutions

- Team Based Approach:
Ensures project constructability
"No surprises"
- Sustainable Construction:
Improved building efficiencies
Health learning environments
- Self Performed Work:
Assures quality workmanship
Assures adherence to schedule
- Single Point of Contact:
Simplifies construction process
Minimizes conflict
- "I would highly recommend Ayars & Ayars." - Jim Duval; Superintendent, Sterling Public Schools
