Alamo Draft House

Theatre Tilt-Up

Ayars & Ayars, Inc. has once again partnered with Alamo Drafthouse to complete all of the concrete work for their theatre in Woodbury, Minnesota. Our portion of this 42,835 sq. ft. building includes: pouring foundations and floor slabs, and pouring and erection of tilt-up panels. The building's walls will be cast on site, which accelerates the construction process while also reducing the transportation and handling costs.
