

# Auburn Public Schools Greenhouse

## Greenhouse to Cafeteria

Auburn Public Schools was chosen as one of five school districts in Nebraska to receive a 'School Greenhouse to Cafeteria' grant during the 2016-2017 school year. Food grown in each greenhouse is harvested and used in their very own school cafeterias. Upon receiving this grant, Auburn Public Schools chose Ayars & Ayars, Inc. to design and build this structure with confidence after working with them on past projects. APS chose to partner up with local sub-contractors to complete this project while having Ayars & Ayars, Inc. oversee the entire process as the general contractor.
