

## Grisanti's - Lincoln

### So Much Done, So Little Time

Grisanti's Restaurant was ready for a new look and when they said they were ready - they meant now! The project schedule allocated 132 hours for completion. Demolition began on a Sunday at 4:00 a.m. and crews worked round the clock to meet the project's scheduled completion time of 4:00 p.m. Friday. Scopes of work on this project included: updating the carpet, changing the paint scheme, replacing the booths, installing a new tile floor in the kitchen, creating space for a new wait station and private dining area and installing new lighting throughout the dining areas.
