

Religious

Saint Mary's Catholic Church

Underfoot

Our Special Projects Group was selected to upgrade and enhance the floor coverings, renovate the church pews and replace the glass between the Nave and the Narthex. Our scopes of work included: removal and refinishing of the church pews, carpet, vinyl and tile installation, re-install pews and glass installation. Our schedule phased the project in three stages, assuring the church would be able to continue it's mission throughout the construction process.
