Elkhorn Suburban Fire District

“SAFE CITY USA®”

The opening of this station will provide enhanced fire protection and emergency medical services to the residents of the Elkhorn Suburban Fire District and the City of Omaha. This design-build facility houses an engine company, water tanker, and rescue squad. Building features include sustainable, low maintenance materials; brick and stucco with a shingled roof that enhances the beauty of the exterior façade and blends in well with the surrounding neighborhood. Interior amenities include 10 bedrooms, living quarters, fitness facilities and training room.
