

Extru-Tech, Inc.

Extrusion Excellence

Ayars & Ayars, Inc. was pleased to be selected to expand and enhance the manufacturing capabilities of Extru-Tech, Inc. Highlighting the abilities of our concrete placement and steel erection crews, scopes of work on this design-build project include: site development, foundations, cast-in-place concrete stem walls, concrete flatwork, steel erection and finishes. Irregardless of a project's size, our clients benefit from our process-driven construction solutions.
