

# Tabitha

## Home

Ayars & Ayars, Inc. was pleased to provide the masonry and concrete components for Tabitha's new senior living facility. Tabitha provides compassionate older adult care through rehabilitation, home care, hospice, meals on wheels, adult day services and elder living options. Two challenges our team successfully overcame to complete this project were: an extremely tight construction site and maintaining access to Tabitha's other facilities during the construction process.

## Project Details

➤ Location:  
Lincoln, Nebraska

➤ Size:  
80,000 sq. ft.

➤ Type of Construction:  
Masonry Construction
