Menasha Corporation

Truck'n On

Ayars & Ayars, Inc's Special Project Group was pleased to respond when a truck damaged a storage tank at Menasha Corporation's Lakeville, Minnesota site. Our scopes of work included: remove damaged steel ring on ladder safety cage & 15' of 4" aluminum pipe, furnish and install new steel safety ring & reconnect safety cage angles to ring and paint new steel. Special Projects Group (SPG) was created for this exact situation - rapid response to small projects and repairs that limit productivity or compromise safety. Rely on the experienced of SPG to keep your facility operating at peak performance.
