

Commercial

Monsanto - Glyndon

More Storage

Ayars & Ayars, Inc. was pleased to erect this pre-engineered storage facility for Monsanto's Glyndon, Minnesota campus. Similar to many of our other Monsanto projects, our scopes of work included site development, foundations, steel erection, concrete placement and finishes. We are proud of the number of clients with whom we have completed multiple projects - Monsanto is a prime example.

Project Details

➤ Location:
Glyndon, Minnesota

➤ Size:
11,200 sq. ft.

➤ Type of Construction:
Pre-Engineered Metal Building

➤ Project Completion:
2009

➤ If there were one word to explain what Monsanto is about, it would have to be farmers.
