Piedmont Shopping Center

Growing with the Community

Our team is pleased to re-invent the Piedmont Shopping Center. As design-builder, our scopes of work involve creating an inviting, cohesive exterior through building shell repairs and façade/site improvements. Additionally, our Special Projects Group has been assisting individual tenants with interior renovations. Together, our efforts will re-establish a neighborhood shopping center for the betterment of both retailers and the community.

Project Details

➤ Location:
Lincoln, Nebraska
