Verizon Wireless

Bring On the Power

Highlighting the concrete expertise of our Special Projects Group (SPG), this generator pad will help ensure Verizon has adequate power to operate its facilities in case of emergency. Created by Ayars & Ayars, Inc, SPG focuses on timely response to smaller projects, creative solutions to facility maintenance and 24/7 availability. Sidewalks, paving repairs, equipment pads, flumes, helical anchors, resistance piers, and retaining walls are specialties of this group.
