

Overland Concrete

Over the Hill

Ayars & Ayars, Inc. was honored to be selected by Ready Mix to build their new concrete plant in Strang, NE. The new facility features two main areas. One constructed for use as an office space for employees and another houses the concrete plant. The roof system selected for the project is a Butler MR-24® standing seam roof system, that includes moisture protection components. Our scope of work for the project included site work, concrete, metal and carpentry.

Project Details

- Location:
Strang, Nebraska
- Size:
7,700 sq. ft.
- Type of Construction:
