

# Ticonderoga Retail

## Shop in Style

Our team was excited to be selected by Ticonderoga Retail to design and build a new wood framed building shell for a multi-tenant retail facility. The exterior walls are constructed of pre-manufactured wall panels, and the shell is equipped with aluminum framed storefront entry door and window systems. The wood framed shell provides a modern looking atmosphere to house retail businesses for years to come. Our scope of work for the project included concrete, masonry, metals, carpentry, and finishes.

## Project Details

Location:  
Lincoln, NE

Size:  
6,600 sq. ft.

Type of Construction:  
Wood Framed

Project Completion:  
2020

Ticonderoga Retail maintains a reputation of being business focused, community minded, and future driven.
