

Omaha Standard Palfinger - Dock Renovation

Back It On Up

At Ayars & Ayars, Inc. we pride ourselves on our relationship based structure. This is the second time we have partnered with Omaha Standard Palfinger to complete a project. This time to complete a shipping dock renovation. Crews took out areas of existing concrete, pre-cast and retaining walls, and interior floor to account for new loading docks, vertical retaining walls, a walk door, overhead door, and dock levelers. Our scope of work included site work, concrete, metals, installation of doors and finishes.
