

Auburn Family Health Center

Rejuvenated!

We are firm believers that building lasting relationships is key in having a successful business. Auburn Family Health Center was a perfect example of this. After working with Ayars in the past, they knew who to call when their facility was in need of a face lift. They wanted to freshen their appearance and reallocate the space inside the facility to meet their medical needs. The center now has a new entrance, dictation rooms where offices once were, and a new conference room.
