

Cargill Quality Lab / Scale Area / Breakroom Remodel

Give Me a Break

We teamed up with Cargill once again. This time to complete various updates at their existing facility in Owatonna, MN. Crews reformed their North sidewalk and installed a stairway, completed a breakroom remodel, made various updates to their ingredient storage area, and completed updates to their clean vestibule area. Our scope of work for the project include demolition, concrete, masonry, metals, and various finishes.
