BNSF Employee Building & Shipping Storage

Added Space

BNSF reached out to Ayars & Ayars, Inc. when they needed an update and more room added to their existing employee building. They also needed space to store vehicles out of the elements. We were able to fulfill their specific needs of the office space and storage space all the while sticking to a strict schedule. Time was critical with this one. The canopy used for the vehicle storage was a completely new project for us and we are thrilled with how it turned out. The office includes office space, a break room, restrooms / locker rooms, and storage space. The shipping container storage area includes parking space and storage within the containers.

Project Details

Location:
Wilmar, Minnesota

Size:
6,412 sq. ft.

Type of Construction:
Pre-Engineered Metal

Project Completion:
2021

For over 160 years, BNSF has operated one of the largest freight railroad networks in North America.
