

Cargill Nebraska City Entrance Monument

Welcome!

Ayars has had a long standing relationship with Cargill and was excited to tackle this project when they called. They were in need of a updated entrance sign at their Nebraska City location. Their old sign was decades old and buried with a group of trees. We worked closely with Cargill to design a sign exactly as they wanted and needed. Our scope of work for the project included removal of the old sign, design and install of the new 16 ft. x 12 ft. monument.

Project Details

- Location:
Nebraska City, NE
- Size:
N/A
- Type of Construction:
Special Projects Group
- Project Completion:
2021
- We bring food, agricultural, financial & industrial products to people who need them all around the world.
