

Communication System Solutions

Bigger & Better Space

Communication System Solutions is a growing company and they officially ran out of space within their facility this past year. It was time to move onto a bigger and better space. They chose to work with Ayars & Ayars, Inc. after seeing how customer friendly and detail oriented our team was. Now that their new facility is complete, CSS will be able to continue to grow without dilemma. Our scope of work for the project includes site-work, concrete, masonry, metals, and finishes.
