Bayer - New Office Building

Office Space Needed

Bayer Ag needed more office space. After partnering with Ayars on a past successful project, they knew who to call this time. Before the construction phase of this project, our crews demolished an existing office building and also relocated a temporary office trailer. Now this new Butler Building will connect to another existing building and have office space, men and women's changing rooms, a conference room, a break room and training room.

Project Details

➤ Location:
Redwood Falls, Minnesota

➤ Size:
10,070 sq. ft.
