

Winders & Geist

Our Start

When Ayars & Ayars, Inc. began in 1985, Winders & Geist was one of our very first partners. We were elated they had faith in us to complete an office addition, interior remodel and warehouse addition. This 22,500 sq. ft. Armco metal building project was just the beginning of our career and we want to give a special thanks to Jack, Joe & Jim Geist who made it possible for us. We have since partnered multiple times to complete a handful of other projects.
