High Plains School

Add It On!

When High Plains Community School decided they needed more room for their growing community, they were referred to Ayars & Ayars, Inc. by one of our satisfied past clients. Updated locker rooms, additional classrooms, commons areas, admin offices and new restrooms will all be included within the new 12,000 sq. ft. addition. Our scope of work for the project includes sitework, concrete, masonry, metal erection, and various other finishes.
