

Commercial

Central Lumber Sales, Inc.

Quality Distribution

Central Lumber Sales will soon be consolidating its current five buildings under this 122,500 sq. ft. new facility. Ayars & Ayars, Inc.'s project team worked closely with the Owner to make sure the layout, size, and features of the building met the Owner's needs. This facility not only will have enough room for their warehouse of products, but plenty of office and conference space along with a fenced in storage area.
