## Union College - Larson Building

### Just keep Swimming!

In addition to a new wellness center, Union College needed to have some repairs and upgrades made to their existing Larson Building. The Larson Building houses their swimming pool, nursing-focused classes and additional amenities. With its age, the building needed to have structural members replace in the pool area and the entire roof replaced along with new exterior paint. The students will also be welcomed to their building with a new entrance and handicap accessible entry to the building.

### Project Details

Location:  
Lincoln, NE

Size:  
44,880 sq. ft.

Type of Construction:  
Metal Re-roof
