Minnesota Soybean Processors

Soybeans to the Next Level

Minnesota Soybean Processors is a 2300 member cooperative that owns and operates a soybean crush facility and bio-diesel facility in Brewster, Minnesota. With the goal to become the largest independent soybean crush facility in the country one day, there is always a need to upgrade and add to the facility. This project included remodeling 2,420 sq. ft. of existing shop space into dry and wet lab space, mechanical room and office area. It also included 1,500 sq. ft. of PEMB addition to house the wet and dry storage area.
